

Alex Chen

Backend Software Engineer

Sydney NSW | alex.chen@example.com | 0456 000 512

SUMMARY

Backend engineer with five years' experience building reliable services in Java. I like clear APIs, boring deployments and databases that answer quickly.

EXPERIENCE

Software Engineer

Apr 2021 – Present

Ledgerly, Sydney NSW

- Build and maintain Java and Spring Boot services behind a RESTful API used by 200,000 customers.
- Designed the public API for partner integrations, including versioning and rate limits.
- Migrated reporting queries from MySQL to PostgreSQL, cutting report times from minutes to seconds.
- Containerised services with Docker and moved deployments onto Kubernetes.

Junior Developer

Feb 2019 – Mar 2021

Cobalt Digital, Sydney NSW

- Built internal tools in TypeScript and React.
- Wrote a REST API in Java for the company's booking system.

EDUCATION

Bachelor of Computer Science, Eastbrook University, 2015 – 2018

SKILLS

Java · Spring Boot · TypeScript · JavaScript · SQL · PostgreSQL · Docker · Kubernetes · Git · AWS

VOLUNTEERING

Mentor, Code Club: teaching primary school students to code (2022 – Present).
